NO. 6

10 WOUNDED IN NEWPORT STRIKE BATTLE

Governor Arrives After Troops Fire On Mob In Rescuing Assaulted Workmen.

Newport, Ky., 4.—Five persons were shot and as many more, including one woman, were beaten and cut in a clash late today between a detachment of State troops and a mob of men and women strike sympathizers who had attacked and overwhelmed twelve workers on their way home from the Newport Rolling Mills.

The mob of several hundred had knocked down the workmen and were stamping and beating them when the detachment of troops arrived. The troops fired a volley in to the mob and then charged with clubbed rifles before the rioters dispersed.

List of Injured

The following casualties are known to have resulted:

W. B. Comstock, mill worker shot and beaten; condition serious. Herschell Wolfe, mill worker, recently of Elwood, Ind., shot and beaten; internal injuries; condition serious.

Frank Janesen, 320 Thornton Street, shot in the hip. Mrs. Gertrude O'Sage, 956 Central Avenue, knocked unconscious with butt end of rifle.

Thomas Carroll, Clifton, Ky., bystander, shot in right arm.

Keller Vanhook, mill worker, badly beaten.

James Groves, mill worker, cut on face and body.

C. B. Brown, mill worker, hacked with knife.

Joseph Gillespie, street conductor, cut on head; ear torn.

Thomas Carrel, Clifton, Ky., shot in wrist.

Workmen Hurl to Ground

The twelve men who were attacked left the plant at 5 o'clock and were proceeding east on Ninth Street between Brighton and Isabella, when the mob, numbering between 300 and 400 men and women, attacked them, shouting, screaming and cursing. The rioters beat the twelve workmen to the ground, the men using their fists and clubs, and the women hurling stones and other missiles.

Sentinels stationed nearby notified troop headquarters, and twelve troopers were sent to the scene on the double quick. As the guardsmen appeared on Ninth Street, members of the mob opened fire on them, according to a report, of the fighting made later by Capt. L. V. Crockett, in command of the Covington tank corps, whose men were involved in the battle. Captain Crockett says not a shot was fired by the soldiers until they were fired on by the mob.

Answer With Volley

The twelve troopers replied to the fire of the mob by sending a volley in their direction. Then, advancing with clubbed rifles, they drove the rioters back. Reinforcements soon arrived and the neighborhood was cleared of the mob.

The soldiers stood guard over the injured until ambulances were summoned.

Comstock and Wolfe were taken to Speers Hospital.

The rioting followed an "impression parade" staged by the troops. The troops had been summoned to disperse a mob of 1,000 persons at Ninth and Brighton Streets. On the approach of the troops, the mob disintegrated into small parties, which spread over the mill district, and continued to maintain a menacing attitude.

Mobs Are Dispersed

It was this situation which persuaded Col. H. H. Denhardt, in command of the troops to march his men through the city, dispersing the rioters as they were encountered and demonstrating the strength and determination of the military.

Maj. James E. Dillon, headed the parade and Colonel Denhardt, and Col. Charles Morrow, rode with the column in an automobile.

The violence was renewed later tonight but in smaller volume, disturbances occurring from time to time in various parts of the city.

Governor Arrives for Parley

"I'm here to remain until peace dawns in Newport," said Gov. Edwin

P. Morrow tonight on his arrival in Cincinnati from Frankfort. He came to confer with strikers and mill owners in the hope of finding a way to end the labor warfare. The conference opened at 10 o'clock with the Governor presiding. The delegates declared they were prepared to remain in session all night if there seemed any likelihood of a settlement being reached.

HEROISM AND PRESENCE OF MIND SAVE WOMAN

What threatened to be a serious accident was narrowly averted on the 30th, ult., by the heroism and presence of mind of Bruce Montgomery, a member of the Bond Bros. Tie Co., who, with several other men, was making a tie inspection trip over the local L. & N. branch by motor car. As the car was between Kronos and Centertown a woman was seen walking on the track some distance ahead. The inspecting party kept thinking that she would leave the track and upon coming nearer attempted to warn her by shouting and hallooing, but she proceeded upon her way without taking the slightest notice of the approaching danger. When it was seen that warnings were without avail frantic efforts were made to stop the car, but a too sudden stop, if it could have been made, would have derailed it. In this dilemma Mr. Montgomery, who is said to be athletic and very strong, leaped for the woman, catching her in his arms, and they both rolled off the track practically unhurt, the latter receiving only slight bruises on one foot. She was, however, naturally, terribly frightened, for it was found that she is deaf which explains the fact that she had been entirely oblivious to all warnings of impending danger. She proved to be Mrs. E. E. Campbell, who resides in the vicinity.

METHODIST REVIVAL CONTINUES WITH GREAT INTEREST

The series of revival services which began at the Hartford Methodist Church on Monday night, the 30th, ult., continues with forceful and inspiring messages from Rev. L. W. Turner, of Calhoun, who is conducting the protracted effort in co-operation with the pastor, Rev. T. T. Frazier. The attendance has been good, the interest displayed by the attendants most encouraging and the prospects are that the final result of the revival will be a great spiritual awakening and revivifying for the town and surrounding country.

The singing is under the direction of Mr. W. J. Bean, with Miss Anna Rhea Carson, at the piano. A children's choir, under the direction of Mrs. W. S. Tinsley, is proving a very helpful feature of the services. All local denominations are showing a most commendable spirit of co-operation.

Services will continue until Sunday, at least, at 2:30 in the afternoon and 7 o'clock in the evening, except that there will be no service on Saturday afternoon.

S. W. BILBRO DEAD

S. W. Bilbro, aged 72 years and 12 days, died at his home about two miles south of Centertown, Thursday, February 2, at 4 a. m., of a complication of ailments. When a small boy he professed faith in Christ and united with the New Hope Baptist church, later moving his membership to the West Point Baptist church, where he lived a faithful member until death. He was married to Mrs. Hula Withrow on June 24, 1907 to which union were born two sons, John B. and Samuel Walker Jr. He was a Mason in good standing, being a member of Matanzas Lodge No. 811.

Funeral services were conducted by Rev. R. E. Fuqua at the Equality M. E. Church, Thursday afternoon, at 2 o'clock. Burial in the near-by cemetery was in charge of the Masonic fraternity. Besides his wife and two sons, Mr. Bilbro is survived by a host of relatives and friends who mourn the loss of such a consistent Christian, accommodating neighbor and exemplary citizen.

Mr. and Mrs. D. B. Hancock and little daughter, Cozie Ellen, who had been spending a few days with Mrs. Hancock's parents, Mr. and Mrs. R. H. Gillespie, left Monday for Bowling Green, where Mr. Hancock will work in the oil fields.

NEIGHBORHOOD NEWS.

Rev. T. T. Frazier was confined to his room for a couple of days early last week with an attack of pleurisy.

Mr. A. D. Kirk who has been confined to his room for several days, suffering from an abscess of the nose is improving.

Little Miss Louise Westerfield and brother, Master Fred, children of Mr. and Mrs. J. A. Westerfield, have been on the sick list for several days.

Mr. John Johnson, who is in the employ of Bond Bros., as superintendent of timber contracts, in Alabama, is spending a few days with his family here.

Mr. Reuben A. Bennett has gone to Springfield, Ill., where he will visit with his son, Mr. J. Caskey Bennett and Mrs. Bennett for several weeks.

Mrs. S. T. Longfellow and little daughter, Helen, left Saturday for their home in Bowling Green after spending several days with relatives in and near Hartford.

Hemstitching and picoting attachment works on any sewing machine, easily adjusted. Price \$2.50 with full instructions. Oriental Novelty Co., Box 11, Corpus Christi, Texas.

Mr. and Mrs. Cecil Heavrin, of Lexington, arrived in Hartford Saturday. They will make their future home in this city where Mr. Heavrin will practice law with his uncle, Mr. M. L. Heavrin.

FOR SALE—One team of old mules, one team of mules, 5 years old. Also one four-year old registered Polled Durham Bull.

GEO. A. BARNES, Beaver Dam, Ky.

Don't forget to let us know before the 25th, if you want the Southern Agriculturist. Our offer of a Free Subscription, if you pay for the Herald a full year in advance, expires on that date.

Mr. and Mrs. W. H. Gillespie took their infant son, Marcus Rhea, to the Jewish Hospital in Louisville, on Sunday for examination and treatment. The child has not been well for a number of months.

Miss Winnie Davis Simmerman, city, and Miss Anna Barnes, Beaver Dam, are the guests of Mrs. S. F. Ferguson, of Indianapolis, Ind. En route home they will stop in Louisville, where they will spend a few days with friends.

Mrs. A. C. Porter left Saturday for Louisville, where she will spend several days with Mr. Porter, after which she will make an extended visit with her sisters, Mesdames N. J. Baxter, of Griffin, Ga., and C. R. McCallister, of Columbus, Ga.

Don't forget to come to the Basket Ball game Saturday night February 11th. Double Header—Greenville Boys and Girls vs. Hartford Boys and Girls. These teams met last Friday night in Greenville, the boys lost and the girls won, so you can look for two of the best games of the season.

The County Drainage Board, consisting of Messrs. S. T. Barnett, Hartford; J. A. Bellamy, Whitesville, R. 2; and V. C. Hocker, Beaver Dam, R. 2, met here Tuesday morning, for the purpose of allowing claims and checking up on the construction work on the Muffett Ditch.

Mr. Joe Hocker, of near town, accompanied by his wife, went to Owensboro last Wednesday for the purpose of undergoing an operation for an abscessed throat, but that night the abscess ruptured spontaneously, causing marked improvement in his condition. He returned home Friday.

Mr. C. U. Jett of the Extension Department of the College of Agriculture was in Hartford Monday and Tuesday holding one day Farm Management Schools for the benefit of the Farmers in each locality. His principle work was the starting of a series of Farm Records for the years business or in other words

he is trying to help put farming on a business basis. Both of the meetings were held in the Agricultural laboratories of the High School buildings of the respective towns.

HOGAN TESTED Buff Leghorns most beautiful of all Leghorns, as good if not better layers; also White Leghorns mated to 265 to 300 egg Ferris cockerels direct; Ringlet Barred Rocks and Buff Orpingtons. Eggs \$1.75 per 15, prepaid, or \$1.00 at farm.

C. R. WARD,

Hartford, Ky., R. R. No. 4.

TRAGIC DEATH OF INFANT NEAR DEANFIELD

Joe Edward, the 20-month old, son of Mr. and Mrs. C. W. Hardin, living about two miles from Deanfield, died at 10 p. m. last Wednesday as a result of burns received the day before. The little fellow and a sister about 3 years old were playing near a grate when the parents stepped out of the room. Returning shortly they found the dress of the infant in flames. Its body, arms and face were badly burned and the flames were probably inhaled. Medical attention was obtained at once but to no avail. The older child says that her little brother was playing with a piece of cloth or paper, which he called his "hanky," when he suddenly stuck it through a hole in the fire-screen, pulled it back ablaze and pushed it down at his side, as if into a pocket, catching his clothing afire.

Interment took place in the family cemetery after a brief service at the graveside. The bereaved parents have the most heartfelt sympathy of a host of relatives and friends.

FIRE CAUSES LOSS OF OVER \$7,000 AT McHENRY

Fire of undetermined origin which originated in the old frame building back of S. J. Tichenor's store, at McHenry, about 2 a. m., Friday morning, resulted in the total loss of the building and contents as well as damage to adjacent buildings, which also probably would have been destroyed had it not been for the prompt and efficient work of the volunteer fire-fighters.

The building was occupied by I. S. Farris as a residence, mill and grocery. His loss on his household goods, grist-mill, stock and car was about \$3,500, with about \$2,500 insurance. The building belonged to Mr. S. J. Tichenor and also contained his automobile. His loss was approximately \$3,000, with \$1,000 insurance. Two other automobiles, belonging to A. M. Palmer and H. Smith respectively, were destroyed. Both the Tichenor and Palmer residences caught fire, but the flames were extinguished before serious damage was done.

BEAVER DAM AGAIN VICTORIOUS

The Beaver Dam basket ball team, which has not tasted defeat for six years, kept this record unbroken by defeating the Owensboro American Legion team by the score of 50 to 10, on the Beaver Dam floor, Saturday night. At the beginning the two teams seemed evenly matched, but the Ohio County lads soon began to take the lead. The feature of the game was the team-work of the Beaver Dam aggregation. The line-up and tallying of the Beaver Champs was as follows: Forwards, Davis (50) and Render (17); Center, P. Barnes (24); Guards, Alf (2) and K. Barnes (2). Subs, Robison and Baker.

CROMWELL

Feb. 3, 1922.—The health of the community is not good, as there is a form of the "flu" prevalent among us.

Cromwell has had another fire, Ansel Haven's house burned a few days ago. It was one of the best residences in the village. Some paper and other rubbish had been swept up and thrown into the stove and some of the burning stuff, falling on the roof, set fire to it. There was only a small amount of insurance, we learn.

Prayer meetings are being held at Ky. John Finley has moved to the

The few pretty days we had seemed to put more life, vim and vigor

into the people in this community. The roads have been exceedingly good for this time of the year.

Tobacco bed burning has been the order of the day around here lately.

We are informed that Mrs. Winslow Smith is quite ill.

Mr. Lester Eldson, who has been visiting his folks here, has returned to Pittsburgh where he has been employed for quite a while.

Mr. Sam James is contemplating a trip to Texas soon.

They say that a lot of bootleggers have taken up winter quarters at Hartford and are receiving treatment. Verily "The way of the transgressor is hard."

CERALVO

Jan. 30.—Misses Ora and Cora Everley went to Beaver Dam Friday to take the common school examination and visited Miss Margaret Cardwell.

Little Miss Irene Robertson, of Pond Run, is visiting Mrs. D. H. Wood.

Mrs. Maggie Faught, of Kronos, was the guest last week of her brother, Mr. Robert Matthews, who was on the sick list.

Mr. Hugh Everley went to Evansville last week.

Mr. Gilbert Morris took the common School examination last Friday and Saturday at Beaver Dam.

Rev. R. W. Danks and Mrs. Danks, of Nelson, visited relatives here Sunday.

Mr. and Mrs. J. H. Wood and little daughter, Viola May, visited relatives at Pond Run recently.

Miss Hazel Brown has been staying with her grandmother, Mrs. S. P. Moore, of Lone Star, who has been sick for some time.

Mr. Clifton White has moved to what is known as the Her farm.

BARNETT'S CREW

Several farmers of this place are through burning plant beds. From all indications there will be a bumper crop this year.

Mr. L. C. Hoover spent one day last week with Mr. John Lewis Masie, of Bell's Run.

Mrs. Orvil Hoover, of this place, went to Henderson Jan. 29th, to be at the bedside of her sister, who later died.

Mr. J. T. Paeton has recently installed a telephone.

Mrs. Wade is on the sick list at this writing.

Mr. and Mrs. Orvil Hoover was the guest of Mr. R. L. Whittaker Sunday.

Mr. Earl Bartlett, who has been on the sick list is greatly improved. Mr. Carl Hoover, who has been on the sick list is able to be out again.

Mr. William Brooks, of this place, spent Friday night with Mr. C. W. Hoover, of the Chapel neighborhood.

BIRTHDAY SURPRISE

A most enjoyable surprise dinner was given Mr. Yewell Foster by his mother, Mrs. Isaac Foster, at the Commercial Hotel, February 1st, in honor of his 14th birthday.

The invited guests were his grandmother, Mrs. W. T. Brown, his teacher, Mrs. S. O. Keown, his Sunday School teacher, Rev. Russell Walker and friends, Alex Johnson, Joseph and William Carson.

The affair was quite a surprise to Yewell and enjoyed by all.

WHY BE SICK?

Thousands of people have found Stone's Specific the medicine they needed for Rheumatism, Stomach, Liver, Kidneys, Chills, Malaria, Cold, La Grippe, Constipation, Weak and Rundown Systems. A Blood Purifier and System Builder, made of Herbs and Iron.

To introduce Stone's Specific, we will give a full size \$1.00 box FREE with your order for one \$1.00 box of Stone's Specific. We make 2 medicines and we want you to know Stone's Specific will keep you well. Send check or money order for \$1.00. Your money back if not satisfied. This offer expires March 10, 1922, so order this big bargain today. Samples Free.

D. W. STONE MEDICINE CO., Marion, Ky.

Reference: Marion Bank, Marion, Ky.

Born to Mr. and Mrs. Emory G. Schroeter on Friday night, Jan. 27 a fine girl. The little lady has been christened Mary Catherine.

FAREWELL TALKS AT ARMS MEETING

Address By President Harding and Final Adjournment Monday.

Washington, Feb. 4.—The arms conference made the last entry on its record of achievements today and prepared for the adjournment Monday.

At a four-hour plenary session two more treaties and half a dozen supplemental resolutions were passed through the final stage of conference approval and then the delegates exchanged farewell courtesies in a series of speeches expressing universal satisfaction over the results of the history-making twelve weeks of negotiations just ended.

Monday's session will be devoted entirely to formal signature of the conference treaties and to an address by President Harding, voicing his appraisal of the work accomplished by the conference he called into being. Most of the foreign delegates plan to leave Washington on Monday or Tuesday.

The two treaties accepted formally at today's session both relate to China, one providing for a revision of Chinese customs system and the other embodying Elihu Root's "four points" and the amplified open door. Some of the separate resolutions put on the record deal with collateral Chinese questions, but included in the lot was a supplement to the four-power Pacific treaty excluding from the scope of the agreement the principal islands of the Japanese empire.

Japs and Chinese Sign

A few hours after the plenary session adjourned the Japanese and Chinese met and affixed their signatures to the treaty by which Shantung is to be returned to Chinese disposition in the conference program. Shantung question occupied a key position in the conference program. The negotiations by which it was settled proceeded outside the conference proper and only the two Oriental powers were made parties to the resulting treaty.

Every delegation had a voice in the final session of oratory that truly brought the work of the conference to a close today, and every spokesman predicted that the negotiations of Washington would build large in the history of the world. Secretary Hughes for the United States and Arthur J. Balfour for Great Britain, hailed the conference accomplishments as ushering in a "new era" of international understanding and Albert Sarraut for France eulogized the record of achievement as constituting the "loftiest president of mankind." Similar expressions came from all the other national groups.

Genoa Conference Mentioned

Embodied in Italy's last message to the conference, voiced by Senator Shanzer, was a reference to the coming economic conference to be held at Genoa, coupled with an expression of hope that the United States would not now withdraw from the councils of the powers. The economic situation must come more and more to the front as the world attempts to scale down armaments and return to the ways of peace.

The utterances of the statesmen of the powers during the final period of oratory were delivered, strangely enough, to a hall almost empty of spectators. The plenary session had lapped far over the Cold, La Grippe, Constipation, Weak and Rundown Systems. A Blood Purifier and System Builder, made of Herbs and Iron.

FIVE YEAR-OLD CENTERTOWN LAD HAS HERALD HABIT

Centertown, Ky., Feb. 4, 1922. The Hartford Herald.

Kind Sir:—I met the postman and failed to get the Herald. I thought it was time I was renewing. So you will find a check on my 6-4t Daddy. I will pay him back when I get to be a grown-up boy as I am just five years old. I read the Herald and am a fine boy.

Yours as ever,
ADRAIN BELL, Route 1,

FARM EXTRACTS

INFORMATION FROM THE EXPERIMENT STATION — AGRICULTURAL PAPERS AND THE COUNTY AGENT'S OFFICE

Incubator Needs Special Care To Hatch Eggs Well

The incubator is coming to be a common piece of farm equipment in Kentucky but like the cream separator or the tractor it cannot be expected to give the best results in its work unless it receives a little special attention, experienced poultrymen say. Making sure that the machine is in good running order a reasonable length of time before it is to be used will produce better results in hatching and save both time and money for the farmer, the poultrymen say.

An inventory of the outfit should be taken at this time of the year to make sure that there is a plentiful supply of wicks and other articles that are to be used in any quantity in turning out the hatch, according to suggestions by poultrymen at the College of Agriculture. Costly delays can be prevented by ordering any needed part immediately.

In order to make sure that the machine can be operated at the proper temperature throughout the period of incubation it should be run two or three days before the eggs are placed in it. Experiments have shown that a temperature of 101 degrees the first week, 102 degrees the second week and 103 degrees the third give best results when a standing thermometer, with the bulb level with the top of the eggs, is used. A temperature of 103 degrees throughout the hatch is best when a hanging thermometer, with the bulb an inch above the eggs, is used.

A well-ventilated cellar has been found to be the best place for the machine but it never should be placed in a damp room or on the second or third floor. Better results will be obtained if the machine is not set in the direct rays of the sunlight.

Before the eggs are placed in the incubator, the thermometer may be tested with the ordinary clinical one by placing the two in water at 110 degrees and then observing them to see that the readings correspond, especially between 103 and 101 degrees, as the water cools.

Rich Soils And Good Stock Found Together

Figures showing that the five counties in Kentucky having the highest land values also have the highest livestock value are being used by soils specialists at the College of Agriculture in pointing out to farmers of the State that good soils and good livestock are usually found together.

In the scheme of agricultural progress, soil improvement should go ahead of, or at least along with, the grading up of livestock, according to R. E. Stephenson, one of the specialists. This is true because the quality of livestock is influenced by the quality of pastures and home grown feeds. In general farming, a livestock industry cannot be developed with purchased feeds, the specialists say.

In the five counties where the land values were found to be highest, or an average of \$198.45 an acre, the average value of livestock was \$75 a head for beef cattle, \$86 a head for dairy cattle, \$13.70 a head for sheep and \$13.10 for hogs, according to the figures which are taken from the 1920 census.

In the five counties ranking from sixteenth to twentieth in land values, which was an average of \$90.43 an acre, the value of the beef cattle, dairy cattle, sheep and hogs was respectively two-thirds, five-sixths, five-sevenths and five-eighths of the value for animals of the of the value for animals of the same classes in the five counties having the highest land values.

In five counties having the lowest land values, which averaged \$9.54 an acre, the value of beef cattle, dairy cattle, sheep and hogs was respectively two-thirds, four-fifths, two-thirds and three-fourths of the value for animals of the same classes in the five counties ranking from sixteenth to twentieth in land values.

Big Increase Expected In Acreage Of Pastures

As a result of the low prices of farm products, the acreage of grain and clover seeded in Kentucky this spring is expected to be increased approximately 100 per cent over that of 1920, soils and crops specialists at the College of Agriculture say. This is in line with the increase reported for 1921 or docking pincer. In castrating when the acreage was increased about 50 per cent over that of 1920. About 80 per cent of the increased acreage will be seeded in that sec-

tion of the State which normally seeds red top or herd's grass for a pasture, according to the specialists. Good stands and success in growing the increased acreage will depend upon proper preparation of the seed bed and the use of sufficient seed, the specialists have pointed out to farmers.

"Grasses of all kinds catch best on seed beds that are compact beneath and only loose enough on top to cover the seed," Ralph Kenney, one of the specialists said. Land growing a cover crop of rye that is being grazed rather heavily is an ideal place to sow red top, since the tramping brings the seed in close contact with the moist earth and enables it to take roots. If the soil is loose on fields without a cover crop, it is frequently best to roll the land immediately after the grass has been sown.

"In spite of the fact that farmers in many localities of Kentucky sow only three pounds of red top an acre, not less than five pounds should be used and 10 pounds is not too much. The amount of labor and trouble necessary to obtain a thick stand can be reduced if sufficient quantities of the seed are used in the first seeding.

"In seeding red top, it is best to use a peck of Japan clover to the acre at the same time. This mixture increases the grazing furnished by the red top alone and in addition the clover, which is a legume, adds to the fertility of the soil.

"Early seedings, if not killed by freezing, usually make the largest crop by mid summer and also usually come through the summer in better shape. Many farmers sow their seed one-third at a time at ten day intervals to insure a stand."

Tobacco Growers Use Seed Treatment

Indications are that many Kentucky tobacco growers will try seed treatment during the coming season in an effort to control wildfire and angular leaf spot, the two most serious diseases of tobacco, occurring in their fields, according to W. D. Val-leau, plant pathologist at the Kentucky Agricultural Experiment Station. A number of Christian county farmers, who recently had almost a bushel of dark tobacco seed treated at the station are among the most recent ones to employ the method before planting their seed.

The treatment which gives promise of rendering the seed disease free involves the use of bichloride of mercury which is being recommended in preference to formaldehyde as the latter resulted in some injury last year when the seed was not thoroughly washed, according to Mr. Val-leau. The seed is soaked for 15 minutes in a solution made up of one part of bichloride and 1,000 parts of water after which it is washed thoroughly in several changes of clean water. Metal containers cannot be used in the soaking process. After the soaking and washing, the seed is dried quickly by placing it in a cheese cloth bag and swinging it around at arm's length several times to remove the surplus water after which it is spread out in a thin layer.

Docking Lambs Raises Their Value On Market

Failure to dock their lambs and otherwise care for them before sending them to the market is responsible for large losses suffered each year by Kentucky sheepmen, according to L. J. Horlacher, in charge of the sheep work at the Kentucky Agricultural Experiment Station. Lambs which have received this care bring from one to three cents a pound more on the principal markets. Both operations may be performed at once after the lambs are from seven to 14 days old. A bright, clear day is best for the work, according to the specialists.

In addition to the higher price which they bring, docked lambs have a blockier appearance, are cleaner and less liable to be infested with maggots and contribute toward giving the flock a uniform appearance. Castrated lambs fatten more quickly than do others, they have a better quality of meat and are not discriminated against on the market, sheep specialists say.

In docking, the tail should be cut off about one inch from the body by means of a knife, pruning shears with the increase reported for 1921 or docking pincer. In castrating the end of the scrotum should be cut off and the testicles and attached cord pulled out. The operations are complete after a

small amount of disinfectant has been applied.

Warren Farmers Complete Plans To Drain Wet Land

In order to increase the crop yields from wet lands on their farms, four Warren county farmers who are cooperating with the extension division of the College of Agriculture and County Agent W. H. Rogers, will install 1,200 rods of tile during the spring months, according to a report by Earl G. Welch, farm engineering specialist who are co-operating with the extension of the college. Three of the farmers are S. K. Warren, Mrs. T. M. Hunt and Charles Davenport, while the fourth co-operator in the project is expected to be one of two other interested farmers.

The tile, which will be purchased co-operatively, will be used in the wet bottom lands along the Barren River which have produced a crop on an average of once in five years during the past. After being drained, the land is expected to produce record crop yields because of its fertility. The cost of installing the tile, including the cost of the tile, digging trenches, laying the tile and filling in, is expected to be about \$5 cents a rod or from \$25 to \$30 an acre. A year ago the same operations were said to cost from \$50 to \$60 an acre.

Extra Lamb Feed Produces Cheaper And Faster Gains

Sheep-owners who give their lambs a little extra feed at this time of the year will profit from the cheaper and faster gains which the animals are able to make, experienced flock owners say. While it is usually best to crack the grain for young lambs, those that are five or six weeks old prefer to do the grinding themselves, the sheep men say. This system of feeding may be started when the lambs are from 10 to 16 days old.

A good grain ration may be made from two parts of ground corn, two parts of ground oats, one part of linseed oil meal and one part of wheat bran, according to L. J. Horlacher, sheep specialist at the Kentucky Agricultural Experiment Station. Clover or alfalfa hay makes a good supplement for the grain ration.

In order to keep the ewes away from the lambs and their feed, a corner of the barn may be fenced off and a creep with horizontal openings constructed for the young animals. Frequent washings with lime water will keep the troughs clean enough for the lambs which do not eat well if these are allowed to become dirty.

Farm And Home News From Over Kentucky

Corn, dairy, hog, clover, wheat and poultry problems are scheduled to receive special attention from farmers in the Chesnut Grove community of Taylor county during the coming year, according to a program of work which they have just completed in cooperation with County Agent J. L. Miller.

Farm boys and girls in Campbell county are showing an increased interest in junior agricultural club work, according to a report of County Agent H. F. Link. More than 230 of them have been enrolled to carry on some club project during the coming year.

Owen county farmers are using co-operation in supplying the lime stone needs of their soils. One limestone pulverizing machine, which is being used co-operatively, already has crushed 1,000 tons of stone for farmers in three communities of the county while farmers in three other communities have their stone ready for the machine. Those in another community are planning to buy a machine co-operatively.

J. S. Clifton, H. W. Highbaugh and Zhale Smith, Oldham county farmers, are planning to keep records on their farm operations during the coming year in co-operation with County Agent G. B. Nance, to show how farming may be put on a business basis.

In order to reduce the usual amount of difficulty in getting a good yield of potatoes from their second crop, 20 farmers in Owen county are planning to use certified seed this year, according to a report of County Agent D. P. Morris.

Taylor county farmers are planning a county Duroc Jersey hog sale to be held next fall as the first venture of its kind ever tried in the county, according to County Agent J. L. Miller. Several different communities in the county will join in promoting the sale.

If it is anything to eat, we have

KENTUCKY ORPHANS

MOVE TO NEW HOME

Leave Cramped Quarters in City For Ideal Cottage Village At Lyndon.

Louisville, Ky., Jan. 28.—The 160 children housed in the old row of residences in the city, which for 25 years had been the domicile of the Kentucky Children's Home Society, have moved to the country. They have left behind them the noise and bustle, to romp and play over the great farm at Lyndon, Ky. They have moved into their cottage village.

From out of strange windows 160 little faces peered with the first streaks of dawn, to look out upon entirely new fields.

In automobiles furnished by the Kiwanis Club, the children made the 15 mile journey from the old quarters on Baxter Avenue, into the land of childhood's fancy and dreams. At one o'clock in the afternoon, the first automobile rolled up before the door of the old home, then came another automobile, another and another, the long line stretching into the distance.

Wild cheers resounded from each upstairs window to greet the Kiwanians and then the clatter of running feet was the forewarning of the crowd of surging humanity that swirled out of doors and about the machines.

The dream of a life time had been realized.

Many of the children learned for the first time the unhampered delight of great, open fields to romp across; these were the children committed from Louisville and other Kentucky cities. Still others were but returning to fields they loved. They were children from the mountains, the coal fields and other rural sections of the state. These latter had known only that depressing poverty of rural life before being taken in under the protection of the Society.

HARDING MAKES FARM LEADER FEDERAL JUDGE

Washington, Jan. 31.—Senator Kenyon, Iowa, leader of the much-discussed agricultural bloc and chairman of the senate labor committee, was named today by President Harding to be circuit judge for the Eighth district. Immediately after receipt of the nomination, the senate confirmed it unanimously in open session.

At the White House it was said that the president had appointed Mr. Kenyon to succeed Judge Walter I. Smith, because of his high regard for the senator's ability and because of the latter's known desire to have a place on the federal bench. Senator Kenyon, in a formal statement later also said the president, when a member of the senate, knew of his dislike for politics and his love for the law.

In the senate, Senator Harrison, Democrat, Mississippi, after confirmation had been voted said that while he was confident that the appointment of Mr. Kenyon was because of the latter's eminent qualifications, the question would arise throughout the agricultural sections as to whether the selection was not intended to drive the wedge into, and ultimately destroy, the agricultural bloc. Senator Hefflin, Democrat, Alabama, declared that with the Kenyon appointment the "drive to break the agricultural bloc had started."

Senator Kenyon does not plan to quit the senate until probably the middle of February. At that time he expects passage of the Capper co-operative marketing bill in which he is interested vitally, and with which he has had much to do as leader of the agricultural bloc.

WANTED—Men or Women to take orders among friends and neighbors for the genuine guaranteed hosiery, full line for men women and children. Eliminates darning. We pay 75c an hour spare time, or \$36.00 a week for full time. Experience unnecessary. Write International Stocking Mills, Norristown, Pa. 19-10t.

THE WAR GRIP LOOSENS

The Conference on Reduction of
Armament, which had been in ses-
sion at Washington for nearly three
months, adjourned Monday. It has
done good work and history will
chronicle its deliberations as a mile-
stone far along the path of interna-
tional progress. If the treaties agreed
upon by the envoys are ratified by
the various governments, it is the
devout hope of all patriots, who are
fully advised as to the purport of the
proposed pacts, that such favorable
action will be taken. We should not
have a repetition of the ghastly
blunder which the rejection of the
Versailles Treaty and the League
Covenant proved to be. The treaties
between the Great Powers to limit
naval armament for a definite per-
iod, to regulate submarine warfare
and to outlaw the use of poison gas,
have a vital meaning and will have
a far-reaching result, for their rat-
ification will, let us hope, eventually
put an end to war, or, at least, give
the nations a breathing spell in the
insane, suicidal competition in naval
preparedness which is fast hurrying
the world toward another cataclysm
of war or bankruptcy.

Let us hope and pray that our
elder statesmen will truly deserve
the name by promptly taking such
ratifying action as will enable us to
reap the full benefits of the Wash-
ington Conference. May they be
guided in their deliberations by the
spirit of the Prince of Peace.

HARTFORD GIRLS

AGAIN VICTORS

The Hartford High School girls' and boys' basketball teams, under the direction of Prof. O. L. Shultz and Miss Florence Nelson, journeyed to Greenville Friday and tried conclusions that night with the ball tossers of that burg's high school. Our girls were victorious to the tune of 9 to 7. The Hartford boys lost by the score of 17 to 44, due mainly to the fact that our star center, Earl Bartlett was out of the game on account of serious illness. The players making the trip were Misses Carter, Barnett, King, Clark, Kirk and Howard; Messrs. Crowe, Shultz, Likens, Baird, and Rhoads. The same teams will play here Saturday night. The fans will, undoubtedly, see a battle royal.

NOTICE FARMERS

Mr. Virgil M. Chapman, of the
Burley Tobacco Growers Co-opera-
tive Association, will address the To-
bacco Growers of Ohio County, at
the Court House in Hartford, Ky.,

MARK TWAIN AND WATTERSON ASH IS NOT GENUINE TEST THIS AIREDALE REAL FRIEND

Friendship Between Two of the Brainiest Men the United States Has Produced.

The late Henry Watterson was a long-time friend of Mark Twain, as of nearly every other prominent American literary worker of his day, and related many anecdotes that resulted from this friendship. Mark Twain's mind turned ever to the droll.

"Once in London I was living with my family at 103 Mount street. Between 103 and 102 there was the great workhouse, quite a long and imposing edifice," Mr. Watterson relates in his autobiography. "One evening, upon coming in from an outing, I found a letter he had written on the sitting room table. He had left it with his card. He spoke of the shock he had received upon finding next to 102—presumably 103—was the workhouse. He had loved me, but had always feared I would end by disgracing the family—being hanged or something—but the 'work' that was beyond him; he had not thought it would come to that. And so on through pages of horseplay; his relief on ascertaining the truth and learning his mistake, his regret at not finding me at home, closing with a dinner invitation.

"It was at Geneva, Switzerland, that I received a long, overflowing letter, full of flamboyant oddities, written from London. Two or three hours later came a telegram. 'Burn letter. Not it from your memory. Susie is dead.'"

SCHEME WORKED OUT WELL

Now Host Made Pretty Sure That Unwelcome Guest Would Not Attend Engagement Party.

The problem was how to invite a certain young woman to the engagement party and still be certain that she would decline to attend. She was known to be a killjoy, but if she were not invited she would talk of it.

About two weeks prior to the party the couple managed to bring together the young woman and a masculine acquaintance of theirs. After the proper introduction the innocent young man and the young woman were left alone.

The following week the young man received two theater tickets from his acquaintance who was to be engaged, who said he would not be able to use them himself. Three days later the young woman received an invitation to the party.

"He's a nice fellow," ran part of the letter in answer to the engagement party invitation, "and he has asked me to accompany him to the theater on the very evening of your party. I would like to come to your party, but I gave him my promise before I received your invitation, so you see how it is: I do hope you will excuse me."—New York Sun.

Giants.

From Nature we learn of a recent meeting of the British association, wherein it was brought out that the popular conception is untrue regarding power of giants and the magnificent types of masculinity which they are supposed to be. Statistics were presented to show that giants were relatively feeble, usually short lived, and, in the majority of cases, devoid of those features peculiar to masculinity. Gigantism was said to be identified with abnormal conditions of two small organs located at the base of the brain—the thyroid gland and the pituitary body. The overactivity of these, preceding or near the period of birth, is the primary cause. Sometimes, however, their overactivity comes into play after the individual has attained his full growth, and, as a result, an overgrowth of the extremities takes place.

Women Have Changed Little.

Women who danced for and with the Pharaohs put on the war paint just as enthusiastically as the lady of today.

A collection of the vanity pots of an Egyptian lady of quality, rescued from the tomb which held her mummified corpse, has just been brought to London. In it, wonderfully blown glass took the place of the silver toilet accessory of the present time.

Some of the glass pots are beautifully iridescent—due to the inroads made on the pots by the acid in the alkali with which they were filled, and with which the Egyptian beauty painted her eyelids, and eyebrows.

The collection included a henna pot still containing traces of the dye with which feminine Egypt of the period painted her finger nails—as London's smart set is doing this season.

Writes Served at Church Door.

Until the middle of the Seventeenth century a familiar figure at a Virginia church door on a Sunday morning was the county sheriff. The law requiring attendance at divine worship was of great assistance to him. It rounded up the planters and small farmers from remote corners and enabled him with a minimum of effort to serve writs, warrants, summonses, executions and similar official papers.

This practical method disturbed the planters who did not fancy official intrusion on such an occasion. So, in 1653, they passed a law prohibiting the service of official papers on Sunday, at the parish church or elsewhere, and the sheriff was sent off on his way of trails the other six days of the week as well as he might.

Merely Shows That Cigar Is Well Made, Not That Its Quality Is of the Highest.

Can the quality of a cigar be told by the ash? To a certain extent it can. Many smokers take a great delight in seeing how long the ash will stay on. It is often possible to smoke a big Havana cigar half or three-quarters way through with the ash intact.

But what most cigar smokers fail to realize is that this is the test of a well-manufactured cigar and not necessarily of the tobacco in it. It depends upon the length and neat arrangement of the filling leaf. A well-made, compact cigar has greater consistency than a badly put together one. But it does not follow that the tobacco is better, a tobacco expert writes.

A surer test is when the ash is flicked off. The glowing point should be sharp. The sharper the point the better the cigar.

As regards the ash, it is a common fallacy that white ash is a sign of a fine, and dark ash the sign of an inferior, leaf. The real truth is that the color depends upon the strength of the tobacco.

A very mild and cheap cigar will give a pure white ash. The finest Havana of ripe strength produces a blackish ash. It does not follow that a cigar which burns imperfectly is bad tobacco. You may have lighted it badly or it may be clumsily made.—Brooklyn Eagle.

ELOQUENT TRIBUTE TO TREES

Writer Beautifully Expresses What Every Lover of Nature Must Have at Some Time Felt.

Trees are the arms of Mother Earth lifted up in worship of her makers; where they are, beauty dwells. Trees are the shelter of man, beast and bird; they furnish the roof above us, the shade about us, and the nesting places of love and song. They call children out to play; they entice sweethearts into leafy coverts to seal their vows with fond caresses; they console and gratefully reward old age. They are the fittest ornaments of wealth and the inalienable possession of the poor, who can enjoy them without having title to them. They are the masts that fly the flags of all nations and the sails of all seas; they are the timbers that bridge forbidding streams; they bear the wires of the world's intelligence; they hold the rails that carry the traffic of the continents; they are the carved and polished furnishings of the home; they cradle the young and coffin the dead. Trees herald the spring with glorious banners of leaf and bloom; they clothe the autumn in garments of gold and royal purple; bared to the winter's cold, they are the harp of the winds, and they whisper the music of the infinite spaces.—Clarence Ousley.

Useful Oil.

Few industries have grown so rapidly as the manufacture of cottonseed oil. In 1867 there were only four cottonseed oil mills in the United States; in 1902 there were 618, and by 1920 the value of the oil and the by-products of it were estimated to be \$125,000,000. Since then there has been a steady increase in the production.

The increased consumption of cottonseed oil is due largely to the great variety of uses found for it. It enters into the manufacture of lard compounds, butterine and other substitutes for butter; is used in packing and preserving fish, in making salad oils, and in the manufacture of so-called "olive oil." The crude oil is used in medicine, in the preparation of cosmetics, liniments and emulsions; as an illuminating oil in miners' lamps, for rough painting, and for tempering edged tools; and as soap stock, in which field of usefulness, after treatment with certain alkalis, it yields soap, washing powder and glycerin.

Is No National Holiday.

Christmas is not a national holiday. New Year's day is not a national holiday. Thanksgiving day is not a national holiday. The Fourth of July is not a national holiday. Neither is Memorial day. Neither is Washington's birthday. Neither is any other day.

There is no such day as a national holiday in the United States. A United States statute would be required to constitute a particular day as a national holiday, and congress has stopped short of this action, numerous constitutional lawyers insisting that such an act belongs to the powers of the several states and not to the general government.

The Fourth of July is not strictly a national holiday, though it is a nation-wide holiday, having been made a holiday by acts of all the states and by the common consent and usage of the people.

Totally Obscured.

A certain callow Chicago swain had an amazingly large mouth which he contorted into an all-pervading smile when he wished to make a good impression. His sweetie had persuaded him to "ask father" and the youth was determined to show himself to good advantage.

"Mister Jones," he began, stretching his principal feature to the utmost of geniality. "I have come to ask for the hand of your daughter. I—"

"Just a moment, young man," interrupted the old gentleman mildly, "would you mind closing your mouth for a moment till I see who you are."—American Legion Weekly.

Dog, Allowed Liberty, Brings Dainties to Hound Which Is Confined to Its Kennel.

Kind heartedness that might well serve as an example for human kind is displayed by "Pat" an Airedale pup of Point Pleasant, W. Va., says a correspondent, the object of its fine feeling being a hound owned by Bert Shiffet. The story of the four-footed pet's benevolence is attested by members of both families, who are neighbors. Shiffet keeps his hound, "Jack," tied in the back yard. Thomas Airedale, however, has the untrammelled liberty of a freeborn American dog and makes the most of it. He is a good forager and knows the location and probable yield of every garbage can in the neighborhood. Mrs. Shiffet feeds Jack generously, and not infrequently the menu contains an appetizing bone, but she did not give Jack all the bones that accumulated beside his kennel. All became clear the other day when Mrs. Shiffet saw the Airedale approach Jack's kennel with a big soupbone in his mouth, set it down in front of his tethered friend, wag his tail gleefully, bark a message of good cheer, dance playfully about for a moment and then dash off for some new adventure. A watch kept on the Airedale showed that trips were made to the hound's quarters every day. Sometimes instead of a bone the offering was a bit of meat or some other dainty.

OLD MINE STILL PRODUCING

That at Falun, Sweden, Has Been Delivering Up Its Riches Since the Year 1225.

On the outskirts of the town of Falun, in the north of Sweden, is the oldest mine in the world. It began to produce copper in 1225.

In the Seventeenth century this mine was the chief source of the copper supply of Europe. Today it no longer produces copper in large quantities, but from its deep-cut galleries come the sulphur pyrites that are used for the manufacture of sulphuric acid and other chemicals.

It is one of the most old-fashioned mines imaginable. You will find no rapid hauling machinery, no cage that descends at lightning speed into the bowels of the earth. You walk into the mine through sloping galleries, and then climb down to its depths by means of long ladders. As you descend you wish that you had brought an overcoat, for the walls are covered with ice.

Ventilation and drainage are accomplished by means of the most antiquated pumping gear in existence in any pit.

Besides copper and pyrites, the Falun mine produces gold. From it came all the gold used to make the Swedish crown and scepter, and it has provided most of the metal for the gold coinage of that country.

Photography of Words.

Devaux-Charbonnel, the French scientist, has photographed the variation of current in a microphonic circuit by the aid of a Biondal oscillograph. The photographs are reproductions of the syllables pronounced by a human voice, and it is expected that they will be of use in the solution of various problems in telephony. In studying the impression made by syllables the experimenter found that each syllable is composed of 30 to 40 complete vibrations. The beginning and the end of the syllables are modified by the impressions of the consonants, but the modifications cover only four or five periods, so that each syllable has 20 to 30 regular vibrations corresponding to its vowel. The method permits the study of the higher harmonics, which give character to words.

Codfish.

Codfish is said to be the world's most important—which means the most eaten—fish. Few fish are more prolific. It has been asserted that one weighing 75 pounds will contain over 9,000,000 eggs. Perhaps the tarpon is one of them, for it is a large fish with a very fine roe. The cod is practically omnivorous, finding means to supply great schools wherever food of any sort is found. It is found in many parts of the world other than the North American "banks" and it is said that it has been fished for by fishermen of northern Europe since the beginning of recorded history and of course for uncountable centuries before man began to make written records.

Cord Tire Facts.

A 20 by 3½ cord tire contains almost 9,000 feet of cord or over a mile and a half. A 35 by 5 has over 30,000 feet of cord or over 5½ miles. The cord, similar to medium-weight fishing line, is made of long fiber cotton, of far better grade than used in ordinary cotton goods. Each cord, insulated in rubber, is separated from the next by a layer of rubber insulating, which gives additional strength. A standard make five-inch cord tire has 20 to 26 cords per inch and a strength in fabric carcass alone in excess of 2,400 pounds to the square inch, irrespective of the strength given by other parts.

Sense of Security.

"I hope some day," remarked Mr. Chuggins, "to give up my flivver and have a private yacht."

"Why do you prefer the yacht?"

"I can go to bed without being disturbed by the fear that some one is going to steal it out of the garage."

Taste is a matter of tobacco quality

We state it as our honest belief that the tobaccos used in Chesterfield are of finer quality (and hence of better taste) than in any other cigarette at the price.

Hen Is a Producer.

A hen owned by a Byron Central, Mich., man is reported to have broken an egg-laying record. She is said to have laid double-yolked eggs every day for three weeks and then produced an egg that weighed six ounces and measured nine and five-sixteenths inches around the long way and one-half inch around the center. It contained two yolks besides being a perfectly normal-sized egg.

Frost Goes Far Into Ground.

A shaft sunk at Yakutsk, Siberia, in the hope of finding water for the town, failed to penetrate below the permanently-frozen ground, or "ground ice," even at a depth of 382 feet. In Alaska several shafts have been sunk about 200 feet, and one reached 365 feet, without penetrating below the frozen ground.

WHEN HER BACK ACHES

A Woman Finds All Her Energy and Ambition Slipping Away

Hartford women know how the aches and pains that often come when the kidneys fail make life a burden. Backache, hip pains, headaches, dizzy spells, distressing urinary troubles, are frequent indications of weak kidneys and should be checked in time. Doan's Kidney Pills are for the kidneys only. They attack kidney diseases by striking at the cause. Ask your neighbor. Here's proof of their merit in a Hartford woman's words:

Miss Mary Yeager, Union St., says: "Several years ago I had trouble with kidney complaint and my back bothered me a great deal. As others in the family had been benefited by Doan's Kidney Pills, I used them and they are certainly fine for backache. I had sharp, stinging pains in my side and across the small of my back. My back hurt and pained, when I stooped over. Doan's Kidney Pills cured me of the trouble and I have been free from kidney complaint ever since."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Miss Yeager had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. (Adv.)

HARTFORD HERALD, ONLY \$1.50 THE YEAR

LOVE

By GERTRUDE W. FIELDER

(Copyright, 1921, by McClure Syndicate.)
"Aye, but it's a dreadful thing," said Mona.

"Why?" I asked.
"You wouldn't ask if you ever had one," answered Mona.

"Did you ever have one?" I queried.
"Did I?" retorted Mona.

"What did she do to you?" I demanded.
"What didn't she do!" cried Mona.

"You'll see for yourself one of these days, Miss Dodo."
"I shan't, either," I retorted.

"Don't be too sure," returned Mona. At that moment Molly appeared in the door. "They're coming on the four-thirty," she said to Mona.

"Who's coming?" I asked impatiently.
"Your papa and your step-mother," answered Molly.

"You shouldn't have told her," said Mona.
"And why not?" bristled Molly.

"I won't have a step-mother," I cried, stamping my foot.
"What do you know about step-mothers?" asked Molly.

"Mona told me. They're horrid," I answered.
"You'll lose your place," said Molly, turning to Mona.

"You will, too, most likely," snapped Mona.
"Cook's in an awful rage," went on Molly, this is her sweetheart's night.

While Mona and Molly were talking, I escaped to the garden. I was having a lovely time making mud pies, when Mona pounced down upon me. She held up both hands in horror.

"My patience alive. You've got to be cleaned from the skin out, and only an hour to do it in. Come along, now."

"I won't," I cried, and raced down the path.
Mona could run, too, but as she put out her hand to grab me, I resorted to an old trick. It was a very simple trick—merely of dropping where I stood, curling my legs under me and utterly refusing to walk. This trick always had the effect of sending Mona's blood clear up to the boiling point. It did now.

In desperation she finally offered me a treasure I had long coveted, a Swiss china clock.

With the clock mine, the bathing, curling and dressing went on apace. The next moment we heard the sound of the automobile upon the gravelled walk.

Mona ran to the window. I fled in the opposite direction. Spying the door to the guest room ajar, I slipped within, closing the door softly behind me. It seemed but a moment before I heard footsteps coming along the hall and papa's voice calling my name. Frantic with fear, I tore the lace spread from the bed, leaped into the middle of the bed, enveloping myself in the spread, forgetting in my frenzy that the suspicious looking heap was sure to be investigated.

The hands which drew me from my lair were not papa's, were not Mona's. I hardly knew what I expected next, surely not what actually followed; peal after peal of ringing laughter.

"Funny baby, playing at hide-and-seek all by her lonesome," cried a merry voice.

I opened my eyes and beheld, not the woman Mona had pictured, but a sweet-faced girl.

"Shy," said papa in an undertone. As a great privilege, I was allowed to sit up for dinner.

In the midst of dinner papa had a telephone message. Ted was coming home. Ted is my big brother. He and Ellsworth Gray (that's his chum) had been on a hike through the mountains. I love Ted more than anyone else in the whole world.

I had been in bed a long while when I heard the sound of voices in the hall and I knew Ted had come. I jumped out of bed, tiptoed along the hall and peeped over the banister.

The scene that met my eyes was burned into my brain—Ted, my Ted, being carried upstairs, his face as white as my nightie, his head bobbing limply. I shrank back in the shadow, my teeth chattering with fright.

The story Ellsworth told was this: One day they had spied a tiny cabin clinging to the mountain-side. In the cabin they had found a man sick with a fever. Ted had nursed him two nights and a day, having sent Ellsworth for aid. When Ellsworth and a doctor got there, the man was dead. Coming out of the woods, Ted had complained of feeling queer.

The horrors of an epidemic struck panic to all hearts when my step-mother was stricken with the fever, my beautiful young stepmother who had helped fight for Ted's life.

Mona left us, and Molly—only Katy of the uncertain temper, stayed at her post.

Ted had been downstairs two weeks when I was allowed to visit my step-mother. Quite suddenly, I was deep in her arms. "I love you," I whispered. "You helped make my Ted better."

"Love, little daughter," she whispered back, "is the greatest thing in the world."

Where They Take Snuff.

The greatest snuff-taking country in the world is France, though it shows a decline in the habit.

DO MORE THAN GUARD SHEEP

Dogs of Scotland Are Also the Companions and Protectors of the Crofter Children.

The sheepdogs of Scotland are guides and defenders not only of the sheep flocks, but also the children of the crofters. Were it not for these shaggy, intelligent fellows, born shepherds of the weak and defenseless, it would be unsafe for the children to go far from the lonely and isolated crofts in the outlying districts. The schools are far distant and it is a long, rough journey across the moor from home to school and back again. And so the sheepdog goes along with them and safe-conducts them to and fro. Moreover, he must carry the books for them, for the little folk would be unequal to the task of carrying any extra weight in the long tramp. Over the dog's back the books are slung and no one need worry for the safety of the children or their belongings. The sheepdog knows his duty and is proud and eager to do it.

The rural libraries established by the Carnegie trust are also using the dogs in distributing books among the homes of the crofters. In fact, it would scarcely be possible for the inhabitants whose crofts are so far from the library centers to share in this great benefit, were there not the sheepdogs to act as librarians. Good literature for the elders as well as the children is dispatched and returned on the sturdy backs of these reliable dogs.

COLUMBUS

By GRACE R. OLIN

© 1921, by McClure Newspaper Syndicate.

Of course his name wasn't "Columbus" at all. It was Antonio (or Tony, if you like) Morello. But as he was born in famed Genoa, and because doughboys have a happy knack of "dubbing" their comrades, Antonio (or Tony, if you prefer) was "dubbed" Columbus.

Not that Tony minded in the least. In fact, he rather enjoyed it.

When the war clouds had hung threateningly over Europe Tony had told his mother and father:

"Go, my parents, quick before the land is red with blood. Go to America, the beautiful. She is young and strong, oh! so strong. The enemy will never reach her shores."

And they had gone, tearfully, reluctantly.

Often in their meager little rooms on a crowded side street in the heart of a great American city the parents thought of the lad.

He had never forgotten to write. Always his letters were bright and cheery. He had gone over the border, he told them, and joined the Americans in France, and they called him "Columbus."

How the old folks had shaken their heads and laughed at this. Then came reports of battles—terrible battles—the Marne, Argonne, and then—silence.

To the two old people, strangers in a strange land, the suspense had been horrible. And then at last, after many days, the longed-for news came.

He had been wounded, badly wounded, but now all was well again.

But the war was ended and he did not come. The money came regularly, 'twas true, enough to pay for humble shelter and bread, but no word as to when their Tony would come to them.

"He writes he is doing so well," his mother would say, "but he does not mention we shall see him," she would finish, tremulously.

"Two hours more, precisely," said Mr. James Brown, with enthusiasm, "and we shall be en route for the good old U. S. A. and home."

"You've said it, Jim, the U. S. A. and home," answered his companion, Mr. Thomas Adams.

"Gee, it's great, isn't it, Jim, to be able to go home when a fellow wants to!"

"Tommy," said Mr. James Brown with a grin, "can't you forget the trenches and bombs, and war, and horrid things like that? Don't you know that we are really at peace?"

And what's more, we shall steam up the harbor on Columbus day, a fitting day for two such red-blooded patriots to be returning."

"By George, Tom, to be serious a minute, speaking of 'Columbus day' makes me think of 'Columbus' who went through the hell of Argonne with us. Columbus, the bashful young hero, who but for his bravery would have lost you a friend in the person of one James Brown."

"And whether or not 'tis fancy or real, that fellow down there loading the ship has a mighty familiar look, Tom. I'm going to take a chance." Mr. James Brown leaned over the rail and called:

"Columbus!"

The thin, brown arms dropped the heavy box.

"Columbus!"

"Hello, Jim!" came the answer.

Two hours later the great ship sailed majestically on her way. On board two excited young men talked to a still more excited third young man.

"Columbus," said Mr. James Brown, sternly, "I'm ashamed of you. Didn't I tell you to keep in touch with me? Didn't I tell you I owed you a debt I could never repay, and how did you obey instructions?"

"Yes, how did you obey instructions, Columbus?" reiterated Mr. Thomas Adams.

The third young man moistened his dry lips.

"I shouldn't have let you do this, Jim," he said; "pay my passage over and everything. You see, my arm wasn't quite strong yet, and I could only work half a week."

"I never meant the old folks should know. I could get them some money somehow. But to go to them—oh, how I have longed to. America, the beautiful. I never thought I should see—"

He broke off abruptly, a catch in his voice.

The eyes of Mr. James Brown and Mr. Thomas Adams met in understanding.

"Columbus," said Mr. James Brown, solemnly, "I need a chap like you in my office. You have education, my lad, and you can be depended on. And as for the old folks, I couldn't think of them living in the city. I know the dearest little white cottage all covered over with roses, and it's just spilling for some nice folks to live in it."

"It was mine, 'Columbus,' but it's yours now; goes with the salary."

A few days later, as the little tug in high triumph pulled the great ship past the Statue of Liberty two young men saluted reverently.

Apart from them stood another, and his face was glorified.

A moisture crept into the eyes of Mr. James Brown.

"Tom," he said softly, nodding in the direction of the young man, "Columbus discovers America."

CHANGE IN ROCKPORT

BANK PERSONNEL

Mr. S. L. Mason, who for some time had been Cashier of the Rockport Deposit Bank, has resigned and, we understand, will continue in the banking business in the South, probably Mississippi. His many friends regret his departure, but wish him the utmost success in the Southland. He has been succeeded by Mr. Rodney Reid, who formerly held the position. The public is assured of the most efficient and courteous service from Mr. Reid.

MISSSES COLEMAN AND DAVIDSON ENTERTAIN

Misses Elizabeth Davidson and Sallie Coleman entertained the Senior Class of Beaver Dam High School last Thursday evening with a theater party after which the seniors were again their guests at the basket ball game between Livermore and Beaver Dam. The group then

adjourned to the home of Mr. R. W. King, where a delightful lunch was served. The class colors, green and pink, were used.

Those present besides the hostesses were: Mr. and Mrs. E. E. Allison, Mr. and Mrs. King, Mr. and Mrs. Martin; Misses Della Hazelrigg, Pauline Barnard, Florence Taylor, Corinne Taylor, Katherine Moorhead, Iva Render, Carrie Southard, Messrs. Clyde Taylor, Leonard Baker, Rodney Reid, who formerly held the position, The public is assured of the most efficient and courteous service from Mr. Reid.

BIRTHDAY SURPRISE

A most pleasant surprise dinner was given Mr. Hez Ward, of the No Creek community, on Saturday, the 28th, ult., the occasion being the fiftieth anniversary of his birth, when a large number of his relatives and friends gathered at his home with well-filled baskets of appetizing viands. The tribute was highly appreciated by Mr. Ward and the day's festivities proved most enjoyable to all the participants.

Those present were: Mr. and Mrs. Hez Ward and son, Morris; Mr. and Mrs. Clarence R. Ward and children; Rev. and Mrs. Jagers and Wilbur Sanderfur, Rollie Bell, Charles Ward, Oscar Ward, Wilson Ward, Lewis L. Ward, James Ward, D. E. Ward, Jr., Rolin Higgs, Glenn Higgs, William Delaney and children; Mr. and Mrs. Dudley Ward and children.

Godfrey Bennett; Mr. and Mrs. L. Ward; Mr. and Mrs. Tolbert Mil-

ler and children; Mr. and Mrs. Everett Milligan and son, Estil; Mrs. Lillie Ward and daughter, Georgia; Mrs. Letha Sanderfur and baby; Mrs. Oma Higgs; Mrs. Georgia Westfield; Mrs. Lucy Carson; Mrs. Gertrude Crowe; Mrs. Lydia Westfield; Mrs. Lila Pirtle; Mrs. Prudie Stevens; Mrs. D. E. Ward; Misses Ophelia Ward, Ann Shaver, Lena Ward, Corinne Ward, Mable Ward, Zelpha Ward, Thelma Ward, Clarice Ward, Bodine Carson and Mary Pirtle; Messrs. Ernest Birkhead, Ernest Bennett, J. S. Bennett, A. D. Milligan, W. G. Ward, Clarence E. Ward, Sam Shaver, Carroll Ward, and Wilbur Sanderfur, Rollie Bell, Charles Ward, Oscar Ward, Wilson Ward, Lewis L. Ward, James Ward, D. E. Ward, Jr., Rolin Higgs, Glenn Higgs, William Delaney and children; Mr. and Mrs. Dudley Ward and children.
